

Project update

Elf Farm Supplies began upgrading its Mulgrave facility in late August 2016 to install the latest technology to manage odour generated at the site. The following is a summary of work that has occurred in the past three months:

- The structure to enclose our raw materials storage area was completed in December 2016. This is the area where we will store our raw materials such as poultry manure and horse stable bedding.
- The construction of the scrubber and biofilter has also progressed. All concrete works for the scrubber have been completed, including filling behind the scrubber tank walls. We are now ready to install the scrubber's structural steel framework. The ground of the biofilter has been levelled and prepared for construction.
- The working slabs for the new tunnels have been laid and civil works have commenced to develop an underfloor heating and aeration system for the tunnels. The next step will be to build the tunnel walls.
- We have also continued to finalise engineering designs including electrical, cooling and other services. This work will continue over the coming months.

The raw storage area structural framework was erected in November 2016

The raw storage area completely enclosed in December 2016

Concreting of the tunnel and bio-scrubber area

Preparing the tunnels area for the building of tunnel walls

Information sessions

We are holding quarterly information sessions about our upgrade until it is complete. The information sessions give the community the opportunity to learn more about the project, by viewing project plans up close and talking to members of the project team.

The next information session will be held from **11.00am to 2.00pm on Saturday 20 May 2017**, in the Tebbutt Room at the Hawkesbury Central Library, 300 George Street, Windsor.

These are 'drop-in' sessions, so there is no need to RSVP to attend. Just come along at the time that suits you best.

If you would like to be kept informed about future sessions, please register for electronic updates via the Contact Us page of our website, see details below.

Further information

Call **1800 155 079** to register concerns or complaints.

The Complaints Line operates from 8.00am to 5.00pm, Monday to Friday, with the exception of public holidays. Voice messages can be left at any time.
